Using Community Resources:
Asking for Help in Person or by Phone

****

If you are seeking assistance from one of the many community resources in Leon County, you may need to ask for help in person or by phone. It may feel unfamiliar or uncomfortable requesting information about the assistance you need. ***Don't give up! Help is out there if you know how to ask for it.***

When you contact an agency or business for help or information, it's important to be prepared. Think ahead before you call or meet with someone to get answers to your questions. Be prepared to write down the answers you receive. Be aware that many of the agencies will use automated answering services and you will need to listen carefully in order to know what numbers to press to get the answers you seek.

Use the following outline to help you prepare to contact community resources.

Ability1st **1823 Buford Ct.** **(850) 575-9621**
www.ability1st.info **~ Tallahassee, FL 32308**

A Place Called Home (APCH)
A Place Called Home and A Place Called Home Families provides permanent supportive housing placements for chronically homeless individuals with a disability and for families that include a parent with a disability. Both programs include additional services such as life skills training, applying for and maintaining government benefits, crisis counseling and money management. Each individual or family in the program works with an Ability1st housing coordinator who negotiates leases with local landlords, processes rent payments, and documents the progress of their Individual Service Plan, which includes long-term goals set by the consumer

Access to Independence (ATI) program

- Access builds - partnering with local civic, professional, and church groups to construct wheelchair ramps and half-steps to enable members of our community with disabilities to get in and out of their homes safely.
- Medical equipment loans – loaning wheelchairs, walkers, transfer benches and shower chairs to those with low incomes and no health insurance coverage for this equipment
- Disposable medical supplies – providing items necessary for good sanitation and to prevent infection, such as disposable undergarments, bed pads, wipes and sterile gloves

Home Modification Program
Together with the State Housing Initiative Partnership Program (SHIP), the Home Modification Program provides home improvements necessary to eliminate health, safety and architectural barriers from the home.

Nursing Home Diversion Program
The Nursing Home Diversion Program is designed to enable people living with disabilities to live independently and remain in their homes rather than moving to a more restrictive and expensive setting. The program provides home modifications, such as widening a doorway to accommodate a wheelchair; installing grab bars to make the shower safer; or building a ramp to provide easier access in and out of the home.

Provides emergency shelter and transitional housing, counseling, support groups, and case management for adults and families at risk of domestic violence, sexual assault or prostitution. Safe shelter services for men individually arranged; individual and group counseling for women and children in shelter and in outreach offices; information and referral to other services.

Emergency Shelter. Refuge House has two emergency shelters: one in Leon County and one in Taylor County, offering a safe place for adults and families who have no other safe housing option.

- For the safety and security of those at Refuge House, the locations of the shelters are confidential.
- While in shelter, residents are provided with emergency foods, linens, clothing and other needed personal items. Staff members are here to help you meet your goals for housing, jobs, family support and any other "next steps" you have in mind. Special activities are designed to help children begin the process of recovering from violence as well. We plan on a 45-day stay for shelter residents.

The Refuge House Transitional Housing Program provides confidential, safe housing to victims of domestic violence, sexual assault, prostitution and sex trafficking, and to their children, for up to two and a half years.

- The **"Safe Haven"** site features rooms located within the Emergency Shelter, and is a wonderful site for survivors and families needing 24-hour crisis intervention and the highest level of site security.
- The **"360"** site features family rooms and apartments within a community living house. This site is perfect for survivors and families who want to benefit from strong support from other survivors, case management assistance, and a rich menu of educational, wellness, and personal interest groups.
- Our most community-based site is the "**Townhome Village**," where independent living is combined with Refuge House activities, events, and supportive counseling services.

After a prenatal risk screening, pregnant women are eligible to enroll in Healthy Start. Healthy Start is a free program created to educate and support women throughout their pregnancies. Eligibility also extends to infants and families with young children under the age of 3.
Healthy Start services include:

- Healthy Pregnancy & Parenting Education
- Nutrition Education
- Childbirth Preparation
- Breastfeeding Education & Support
- Women's Health Education & Support
- Child Development Education
- Stress Management and Emotional Support
- Help to Quit Smoking
- Care Coordination and Referrals

After enrollment, participants are connected with a care coordinator who tailors the program to the client's specific needs. Care coordinators can come to the client's home (or other location) to assist in steps needed to have a healthy pregnancy. Clients meet with care coordinators at least once a month and possibly more often if necessary.

Healthy Families Gadsden/Leon is a free and voluntary home visiting program for expecting parents or parents who have a newborn baby younger than three months of age. Healthy Families provides:

- In-home parenting education
- Prenatal information, education, and birth preparation
- Basic infant care education
- Child developmental screening and monitoring
- Fun and educational activities for parents and babies using the latest research in brain development
- Well baby care and immunization education
- Family resources and referrals to community services
- Child and home safety education
- Support in setting and achieving family goals
- Program services may be provided for up to three to five years, depending on the needs and goals of your family.

Office hours are 9 am to 5 pm. However, because services are delivered in-home, program staff will work to provide visits at a time that is most convenient, and visits can be provided before or after typical working hours and on weekends.

Offers home visiting services delivered by trained family support workers to families of newborns, under three months old, who are experiencing stressful life situations. Offers support to promote healthy child development, enhances problem solving skills, and provides links to health and support services family may need. Services may begin at the birth or prenatally and are offered to families for up to five years. Intensity and duration based on need. Majority of community referrals come through Healthy Start prenatal infant screening.
